

A Comprehensive English Language Development Program for Grades K-5

Carousel of IDEAS,^{4th Edition} and the Common Core State Standards

This correlation is designed to show how *Carousel of IDEAS* Sets 1 and 2 provide the necessary rigor, activities, and curriculum to prepare English learners to meet the Common Core State Standards. This is a broad alignment for states whose ELD standards are currently in development. States using WIDA Prime ELD standards will find a *Carousel* alignment to the WIDA standards here:

From the Standards—Reading: Text complexity and the growth of comprehension

The Reading standards place equal emphasis on the sophistication of what students read and the skill with which they read. Standard 10 defines a grade-by grade “staircase” of increasing text complexity that rises from beginning reading to the college and career readiness level. Whatever they are reading, students must also show a steadily growing ability to discern more from and make fuller use of text, including making an increasing number of connections among ideas and between texts, considering a wider range of textual evidence, and becoming more sensitive to inconsistencies, ambiguities, and poor reasoning in texts.

College and Career Readiness Anchor Standards for Reading	Carousel of IDEAS
<p>RI/RF.CRR.1-3</p> <p>Key Ideas and Details</p> <p>The CCSS call for students to:</p> <p>1. Read closely to determine what the text says explicitly and to make logical inferences from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.</p> <p>2. Determine central ideas or themes of a text and analyze their development; summarize the key supporting details and ideas.</p> <p>3. Analyze how and why individuals, events, and ideas develop and interact over the course of a text.</p>	<ul style="list-style-type: none">• In the <i>Carousel</i> program students are gradually introduced to fiction and nonfiction text as they gain proficiency in decoding and reading fluency. Students answer factual comprehension and critical thinking questions orally and in writing.• Lesson 4 of every chapter is a literature-based lesson where the teacher reads a selection aloud to students. Students then respond orally and in writing to determine the main ideas, supporting details, character and setting details, story sequence, and problem/solution situations.• The variety of content-based texts requires students to answer rigorous in-depth text-based questions promoting critical thinking and inquiry.• Tasks require students to organize, display, restate, and summarize details and ideas from the text.• Informational nonfiction text requires students to interpret data presented in charts, tables, or graphs.• Tasks guide students to recognize figurative language, idioms, analogies, and metaphors in literature and content-area texts.

<p>RI/RF.CRR.4-6 Craft and Structure</p> <p>The CCSS call for students to:</p> <p>4. Interpret words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings, and analyze how specific word choices shape meaning or tone.</p> <p>5. Analyze the structure of texts, including how specific sentences, paragraphs, and larger portions of the text (e.g., a section, chapter, scene, or stanza) relate to each other and the whole.</p> <p>6. Assess how point of view or purpose shapes the content and style of a text.</p>	<ul style="list-style-type: none"> Teachers lead discussions about language use, figurative meanings (idioms, fixed expressions, and so forth), and syntactical structure through use of the sentence frames that target specific grammatical forms and verb tenses with the <i>Frames for Fluency</i> sentence frames included in the Premium set of materials. Students then practice target forms in pairs. Giving students explicit instruction in how the English language works and providing sufficient oral practice prepares students for success when reading more complex texts. In the Set 2 Resource Guide, resource instructional sheets can support teachers in teaching the structure of a paragraph, essay, and other writing formats. These supports include a description of the writing process, editing checklist, how to write a paragraph, and so forth. The variety of short readings from science, social studies, and literature books can be used to address this standard, although assessing point of view and purpose are not explicitly addressed in the Teacher's Guide.
<p>RI/RF.CRR.7-9 Integration of Knowledge and Ideas</p> <p>The CCSS call for students to:</p> <p>7. Integrate and evaluate content presented in diverse formats and media, including visually and quantitatively, as well as in words.</p> <p>8. Delineate and evaluate the argument and specific claims in a text, including the validity of the reasoning as well as the relevance and sufficiency of the evidence.</p> <p>9. Analyze how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches the authors take.</p>	<ul style="list-style-type: none"> The content and information in <i>Carousel</i> is presented in many different formats: poems, charts, graphs, calendars, menus, reader's theatres, songs, chants, pictures, and so forth. Explorers also did not have the navigation tools they needed to get from one place to another.</p> <p></p> <p>Finding Direction Sailors used landmarks, the sun, and the wind to find out in which direction they were moving. Sailors used the sun to find east and west. They knew the sun rises in the east and sets in the west.</p> <p>Early Navigation Tools Early explorers probably used a compass made from a magnetized needle floating in a small pan of water. The needle pointed toward north. Sailors also used a tool called an astrolabe. It measured the distance of the sun and stars above the horizon.</p> <p></p> <p>Teacher Note: See the Teacher's Guide for detailed instructions. However, many of the animals that live in the ocean are not fish. Among them are dolphins.</p> <p>What is a dolphin? Dolphins are mammals. They need oxygen to breathe. They must come to the surface of the water and breathe through a blowhole at the top of their head. Just like other mammals, dolphins are warm-blooded and their babies get milk from their mothers.</p> <p>Dolphins are part of the whale family and there are nearly 40 known species of dolphins. The most commonly known species is the bottle-nosed dolphin.</p> <p>Bottle-nosed dolphins can grow up to 10-14 feet long and weigh up to 440-600 pounds.</p> <p></p> <p>Why do dolphins travel in groups? Dolphins are family-oriented. They live as a family and travel around as a group because they like the company of other dolphins. Another reason they travel in groups is because they protect one another. If a dolphin is attacked by a shark, several other dolphins can fight it off with their strong tails and sharp teeth.</p> <p>Teacher Note: See the Teacher's Guide for detailed instructions. From the Standards—Writing: Text types, responding to reading, and research

The Standards acknowledge the fact that whereas some writing skills, such as the ability to plan, revise, edit, and publish, are applicable to many types of writing, other skills are more properly defined in terms of specific writing types: arguments, informative/explanatory texts, and narratives. Standard 9 stresses the importance of the writing-reading connection by requiring students to draw upon and write about evidence from literary and informational texts. Because of the centrality of writing to most forms of inquiry, research standards are prominently included in this strand, though skills important to research are infused throughout the document.

Production and Distribution of Writing

The CCSS call for students to:

4. Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
5. Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach.
6. Use technology, including the Internet, to produce and publish writing and to interact and collaborate with others.

- Students are instructed on the writing and editing process throughout the *Carousel* program. Writing models are provided to guide students. Students are given explicit instruction in writing conventions.

This template is titled "Editing Checklist B" and includes fields for "Name:" and "Date:". It lists several categories of writing rules with checkboxes and examples:

- Capital Letters**: at the beginning of each sentence, proper names
- Punctuation**: periods, question marks, exclamation points, commas, and apostrophes
- Spelling**: If you need help with spelling, consult the IDEA Picture Dictionary 2 or a standard dictionary.
- Vocabulary**: Use descriptive verbs, adjectives, and adverbs. Use synonyms instead of using the same word more than one time.
- Sentences**: Use simple and compound sentences. Be sure to keep the verb tense consistent within each sentence. For example: She went to the store and bought bread.
- Paragraphs**: Sentences should be arranged in a logical order.

Main Idea Paragraph	Sequence of Events/Summary Paragraph
1) introduction stating the main idea	1) first event
2) details supporting the main idea	2) second event
3) conclusion restating the main idea	3) third event
	4) summary statement

This template is titled "Writing an Essay" and includes sections for "Step 1 Choose a topic", "Step 2 Put your ideas in a graphic organizer", "Step 3 Write an outline", "Step 4 Write a paragraph for each section of your outline", "Step 5 Read your essay", and "Step 6 Edit and rewrite your essay".

Step 1 Choose a topic.
Example: reasons why I want to be a pharmacist when I grow up

Step 2 Put your ideas in a graphic organizer.
Example:

Step 3 Write an outline.
Example:
 I. Introduction - I Want to Be a Pharmacist
 II. What is a Pharmacist?
 A. Someone in the medical field
 B. Someone who gives people prescription drugs
 III. Advantages of Being a Pharmacist
 A. Good hours
 B. Good pay
 IV. Reasons I Want to Be a Pharmacist
 A. I like science
 B. I like helping people
 V. Conclusion

Step 4 Write a paragraph for each section of your outline.
Each paragraph should have a topic sentence, supporting details, and a concluding sentence. Also, each paragraph should support the main topic of the essay.

Step 5 Read your essay.
 • Does the first paragraph state the main idea?
 • Do all the details support the main idea?
 • Does the conclusion restate the main idea?

Step 6 Edit and rewrite your essay.
 • Make any necessary changes to your essay.
 • Read it again and check for punctuation and spelling errors.
 • Give your essay an interesting title.

This template is titled "How to Write a Paragraph" and includes sections for "Step 1 Choose a topic", "Step 2 Put your ideas in a graphic organizer", "Step 3 Write an outline", "Step 4 Write a paragraph for each section of your outline", "Step 5 Read your essay", and "Step 6 Edit and rewrite your essay".

Step 1 Choose a topic.
Example: I like science

Step 2 Put your ideas in a graphic organizer.
Example:

Step 3 Write an outline.
Example:
 I. Introduction - I Like Science
 II. What is Science?
 A. Science is a way of knowing about the world
 B. Science is based on observation and experiment
 III. Advantages of Learning Science
 A. Good hours
 B. Good pay
 C. Good grades
 D. Good job opportunities
 IV. Reasons I Like Science
 A. I like science
 B. I like helping people
 V. Conclusion

Step 4 Write a paragraph for each section of your outline.
Each paragraph should have a topic sentence, supporting details, and a concluding sentence. Also, each paragraph should support the main topic of the essay.

Step 5 Read your essay.
 • Does the first paragraph state the main idea?
 • Do all the details support the main idea?
 • Does the conclusion restate the main idea?

Step 6 Edit and rewrite your essay.
 • Make any necessary changes to your essay.
 • Read it again and check for punctuation and spelling errors.
 • Give your essay an interesting title.

- Students learn about the structure of the different writing genres and follow guided steps to produce such writing.
- Graphic organizers help students brainstorm, organize, and revise their ideas before they begin writing.
- Students use technology to enhance and support their writing assignments in a variety of ways—creating presentations, using technology such as e-mail, blogs, PowerPoint, visuals, cartoons, and charts and graphs.

<p>W.CCR.7-9</p> <h2>Research to Build and Present Knowledge</h2> <p>The CCSS call for students to:</p> <ul style="list-style-type: none"> 7. Conduct short as well as more sustained research projects based on focused questions, demonstrating understanding of the subject under investigation. 8. Gather relevant information from multiple print and digital sources, assess the credibility and accuracy of each source, and integrate the information while avoiding plagiarism. 9. Draw evidence from literary or informational texts to support analysis, reflection, and research. 	<ul style="list-style-type: none"> • There are several research-based writing projects in the program. Students learn how to gather information from different sources—Internet, library, books, and so forth. The research writing process instructs students on how to evaluate their sources. Writing tasks range from short paragraphs in response to question prompts or based on classroom discussions to more extended research projects individually, in pairs, or in small groups. Students have many opportunities to write extensively in the program.</p>

From the Standards—Speaking and Listening: Flexible communication and collaboration

Including but not limited to skills necessary for formal presentations, the Speaking and Listening standards require students to develop a range of broadly useful oral communication and interpersonal skills. Students must learn to work together, express and listen carefully to ideas, integrate information from oral, visual, quantitative, and media sources, evaluate what they hear, use media and visual displays strategically to help achieve communicative purposes, and adapt speech to context and task.

Making an Oral Presentation

It's not just what you say, but how you say it!

Content: What you say.

Step 1 ➔ Decide what you want to say.

Choose a topic you know something about.

Step 2 ➔ Organize your ideas.

Your presentation should have a beginning, a middle, and an end.

Step 3 ➔ Plan your introduction.

Make it interesting! You want to grab your audience's attention.

Step 4 ➔ Explain your ideas.

- Write your main points on cards and number them.
- Use visual aids, such as pictures or charts.
- Stay on the topic. Do not start talking about other topics.
- Involve your audience. Ask them to answer questions or give their opinions.

Step 5 ➔ Have an effective conclusion.

- Review your main points.
- Allow time for a few questions.
- Have a definite ending. For example, "That's the end of my presentation. Thank you for listening."

Delivery: How you say it.

- Look directly at your audience.
- Smile!
- Stand up straight.
- Speak clearly.
- Do not talk too fast or too slow.
- Vary the tone of your voice.
- Talk to your audience—do not read to them!
- Use hand gestures if appropriate.

SL.CCR.4-6

Presentation of Knowledge and Ideas

The CCSS call for students to:

4. Present information, findings, and supporting evidence such that listeners can follow the line of reasoning and the organization, development, and style are appropriate to task, purpose, and audience.

5. Make strategic use of digital media and visual displays of data to express information and enhance understanding of presentations.

6. Adapt speech to a variety of contexts and communicative tasks, demonstrating command of formal English when indicated or appropriate.

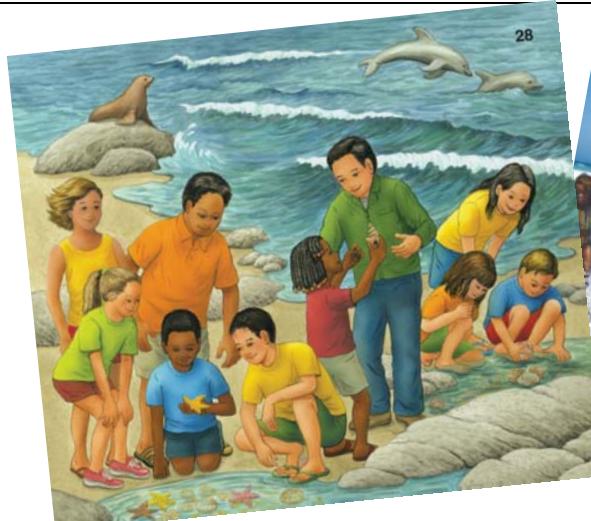

- Students communicate for a variety of purposes, from basic tasks such as to ask and answer questions, describe, and retell, to more academic tasks such as express feelings and preferences, giving an opinion, making an argument, and giving a presentation.
- Students have many opportunities to use multimedia (e.g., Internet, CD-ROM, software), illustrations, analogies, and visual aids in their oral presentations depending on the purpose and audience.
- Activities to develop effective use of English in a variety of contexts and comprehensible output include role-play, reader's theaters, debates, speeches, songs, poems, and so forth.
- Students are encouraged and guided to demonstrate proper pronunciation, rhythm, stress, and intonation of English in their oral discussions and presentations. The teacher provides explicit and immediate corrective feedback on speech and oral fluency and accuracy.

From the Standards—Language: Conventions, effective use, and vocabulary

The Language standards include the essential “rules” of standard written and spoken English, but they also approach language as a matter of craft and informed choice among alternatives. The vocabulary standards focus on understanding words and phrases, their relationships, and their nuances and on acquiring new vocabulary, particularly general academic and domain-specific words and phrases.

<p>L.CCR.3</p> <h3>Knowledge of Language</h3> <p>The CCSS call for students to:</p> <p>3. Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.</p>	<p>In <i>Carousel</i>, students use grammatical structures to perform a variety of actions and tasks such as asking and answering questions, expressing opinions, restating, comparing and contrasting, connecting ideas, and so forth. There are many varied opportunities in the program for students to use language in authentic and functional contexts to develop accuracy and fluency. For a full list of the language functions covered, see Appendix G of the Teacher's Guide.</p>
<p>L.CCR.4-6</p> <h3>Vocabulary Acquisition and Use</h3> <p>The CCSS call for students to:</p> <p>4. Determine or clarify the meaning of unknown and multiple-meaning words and phrases by using context clues, analyzing meaningful word parts, and consulting general and specialized reference materials, as appropriate.</p> <p>5. Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.</p> <p>6. Acquire and use accurately a range of general academic and domain-specific words and phrases sufficient for reading, writing, speaking, and listening at the college and career readiness level; demonstrate independence in gathering vocabulary knowledge when considering a word or phrase important to comprehension or expression.</p>	    <ul style="list-style-type: none"> • Vocabulary is organized into themes that are spiraled through the program with each unit building on the previous. • Picture and word cards and thematic pictures put vocabulary into context. • Vocabulary instruction is explicit and there are many activities and tasks to reinforce and use vocabulary in social and academic contexts.

- Students receive instruction on word parts, prefixes and suffixes, homophones and homographs, Latin root words, as well as strategies on analyzing and using context clues to understand unknown words.
- Literature selections incorporate the chapter's vocabulary in an authentic context.
- Students receive instruction in idiomatic language.

Idioms

Directions: Write new idioms you have learned. Then write the meaning of each idiom and an example of how it can be used.

Example:
Idiom: No use crying over spilled milk.
Meaning: There's no point getting upset over something that has already happened and can't be changed.

Example: My friend wants to see a movie. We go to the movie, but the tickets are sold out. My friend is very upset. I tell her, "No use crying over spilled milk."

Carousel of IDEAS Assessment Overview

Assessment Purpose	Test Type
Placement	<p>1. Use a formal language proficiency test (e.g., state ELP test, IPT Oral Test) OR 2. Use a <i>Carousel Tester</i> placement test OR 3. Use a <i>Carousel</i> listening and speaking performance-based evaluation in conjunction with a chapter pre-test (see <i>Carousel Teacher's Guide</i> page 28 for details)</p>
Monitoring Progress	<p>"Observing Student Progress" Sections</p> <ul style="list-style-type: none"> ▪ Learning objectives for each lesson are listed at the end of the lesson to remind teachers to stop and evaluate students' progress ▪ Ask yourself, "Do students meet these key objectives?" ▪ If students did not grasp a concept presented, review and reinforce <div data-bbox="1161 620 1858 1060" style="background-color: #e0f2e0; padding: 10px;">  <p>Observing Student Progress</p> <p>Do students meet these KEY OBJECTIVES ...</p> <ul style="list-style-type: none"> ✓ Listen attentively to presentation of target vocabulary: adjectives (<i>careful, helpful, thankful, hurtful, thoughtful</i>) ✓ Recognize and demonstrate comprehension of target vocabulary through verbal and nonverbal communication: adjectives (<i>careful, helpful, thankful, hurtful, thoughtful</i>) ✓ Recognize noun to adjective derivations ending in <i>-ful</i>; use <i>-ful</i> adjectives orally and in writing ✓ Make predictions using the future tense; confirm predictions following a model (e.g., I found out _____. Now I think _____.) ✓ Listen to a story and respond orally by answering comprehension, recall, and critical thinking questions ✓ Write a letter giving advice to a book character (e.g., You should explain to the girls why you have to take medicine.) ✓ Describe and discuss traits that make student different or unique ✓ Illustrate or explain in own words meaning of the Golden Rule ✓ Retell a story to a family member ✓ Ask interview questions and record responses ✓ Complete assignments neatly, accurately, and on time </div>
Formative Assessment	<p>Chapter Overviews & Evaluation Checklists</p> <ul style="list-style-type: none"> ▪ Found at the beginning of every chapter ▪ Outlines the learning objectives for each lesson in the chapter: Listening, Speaking, Reading, and Writing ▪ Use these objectives to track each student's progress and to measure how well students are meeting the objectives ▪ Available as reproducible blackline masters in the <i>Resource Book</i>

Portfolio Evaluation

- Students create and compile a portfolio of work they complete for each chapter
- Shows what students are doing well and areas that need attention
- Serve as a body of evidence to demonstrate that content standards have been met
- At the end of a chapter, students choose three pieces that demonstrate their best work
- Evaluate students' portfolio using Assessment Form 2 found in the *Resource Book*
- Portfolios are rated: Superior, Average, Below Average, and Fails to Meet Objectives

Unit Evaluation

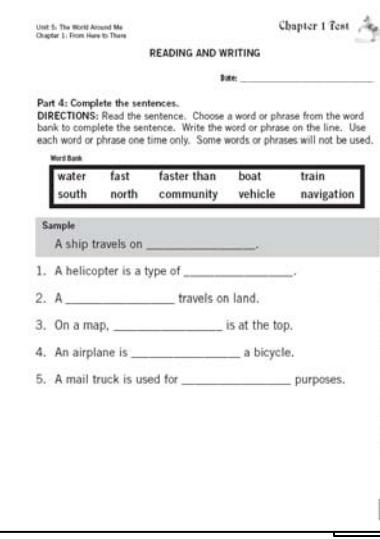

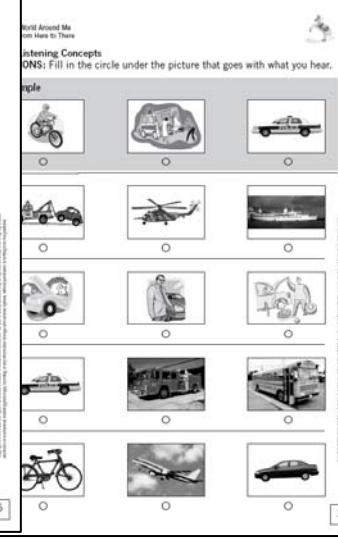

- At the end of each unit, evaluate each student's overall performance for that unit
- Assess the following criteria:
 - Mastery of chapter objectives
 - Ability to work with others
 - Ability to work independently
 - Completion of assignments neatly, accurately, and on time
 - Listening & speaking performance evaluations
 - Reading & writing chapter tests
 - Portfolio evaluations
- Use Assessment Form 3 found in the *Resource Book*
- If student scores "superior" or "satisfactory" in all categories, move to the next unit. However, if the student scores "not satisfactory" in any category, provide additional instruction and practice to prepare him or her for the next unit

Unit 6, Chapter 3 Overview
